OBJECTIVE

Proactively seeking a summer internship to apply web technologies and machine learning skills, with a track record of contributing to web projects and machine learning projects for impactful results.

PROJECTS

Movie Recommender: [GitHub Link](#)

- Implemented Python-based movie recommender using Pandas, NumPy, and ML algorithms on TMDB data for personalized suggestions.
- Elevated user satisfaction with precise recommendations and advanced feature extraction.

Poppy Chatbot: [Demo Link](#)

- Pioneered 'Poppy' Chatbot using Dialogflow, HTML, CSS, and JavaScript for interactive human queries.
- Promises an evolving and user-friendly conversational experience.

EnrollEase Project:

- Led 'EnrollEase' final year project with proficiency in HTML, CSS, JS, PHP, and MySQL on XAMPP.
- Designed an intuitive course enrolling website for Banasthali College.

Designed Games (Game Development): [GitHub Link](#)

- Created command-line Rock, Paper, Scissors in C and a Python-based guessing game for interactive and enjoyable gameplay.

SKILLS

Technical Languages: C (Intermediate), C++ (Advanced), SQL(Intermediate), Python (Intermediate), Java (Beginner)

Web Technologies/Frameworks: HTML(Intermediate), CSS (Intermediate), JavaScript (Beginner), PHP (Intermediate)

Soft Skills: Teamwork, Adaptability, Networking

EDUCATION

Bachelors in Information Technology, Banasthali Vidyapith   2021-2025
Relevant Coursework: Data Structure, DBMS, and OOPS.

High School Education, D.S.Science Academy   2016-2021

COURSES

- **Diploma in Internet and web application** — Banasthali Vidyapith — May 2023
  - Attained web development proficiency with a completed frontend project.
